## HELPED HER MOTHER WONDERFULLY

In these days of "flu," coughs, colds, croup and whooping cough, it is well to know that every year there are used more bottles of Foley's Honey and Tar than of any other cough medicine. Mrs. S. L. Hunt, 615 W. 6th St., Cincinnati, Ohio, writes: "Foley's Honey and Tar relieved me of a hacking cough, tickling in the throat, wheezing and pains in the chest. It is helping my mother wonderfully." That's why druggists recommend Foley's.

## ADS THAT PAY WRIGHT'S TOPIC

Ogdan Advertising Man Says Evening Paper Best Medium

That advertising in an evening newspaper is superior to that of a morning publication in obtaining results, was the declaration made by Gus Wright, advertising manager for W. H. Wright & Sons, in an impressive talk on the elements of retail newspaper advertising this noon before members of the Progressive Business club at the regular weekly luncheon.

"Advertising in the evening paper," Mr. Wright said, "has more value than the morning publication, for the simple reason that the housewife has time to read it. During the morning hours she is crowded with housework, in getting the children off to school and numerous other duties. By the time she picks up the morning paper the news she reads is stale."

"On the other hand, the evening paper reaches her in the afternoon, fresh with news that has happened during the day, and she and other members of the family have ample time to read the messages of news and advertising. She then plans her purchases."

Mr. Wright declared The Standard-Examiner a medium through which successful advertising can be obtained. He declared that it covered the local field as thoroughly as any other newspaper in the country covered its particular locality and asserted that it carried its message to the great masses—the masses that purchase.

Advertising, he said, greatly reduces prices, rather than adds to the expense of selling merchandise. It creates stimulated sales which decrease the overhead of expense of selling and national advertising promotes quantity production which greatly reduces the manufacturing cost of an article.

Mr. Wright also explained the proper methods of "making up" advertisements and used diagrams to more fully impress his hearers with the value of writing advertising copy that brings results.

A. T. Wright announced that Professor William Peterson of the Utah Agricultural college would address the club members on "Geology" at the regular luncheon next Tuesday, and explain the rock formations of Ogdan canyon.

One of the shots crashed into the brain and death was instantaneous.

Following the shooting the woman is alleged to have told police officers that she shot Leo because he would not return money she had given him for safekeeping. She has been confined in the county jail for the last six weeks.

## THEATRES

Wallace Reid Scores Hit in Picture Today Only at Alhambra

With Wallace Reid in a most suitable role, Lois Wilson as his leading woman and a splendid cast including Helen Dunbar, Henry Miller, Jr., Helen Dunbar, S. J. Sandford and Guy Oliver, "The World's Champion," the new Paramount picture which was shown at the Alhambra theater yesterday, is living up to its name.

The hero is a budding son of a meek, nobly-worshipping son of a commoner. There are three fistic encounters—the first when the son pays informal court to a lady and daughter of the nobility and is attacked for his forwardness by her escort, Lord Brockington, and thrashed the second, a ring bout wherein the hero wins the middleweight championship while in America and the third battle with Lord Brockington in which the now trained fighter returns him a dose of his own medicine.

Mr. Reid is in his usual good form as a lover and the picture is not lacking in romance. The characters, all English humorous types, provide a wealth of rare humor and are well portrayed. The picture will be given its last showings today.
